The following action is in response to the amendment received October 5, 2005.

Allowable Subject Matter

Claims 1-4 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or render obvious a power transmission device as defined in claim 1 wherein a torque converter and a clutch are disposed in series in a transmission route between an engine and a gear transmission system and wherein the torque converter is arranged so that a pump capacity is a maximum at a speed ratio equal to zero and gradually increases in response to an increase in the speed ratio.

Applicants' remarks submitted October 5, 2005 are persuasive, and it is agreed that the Minowa et al.('873) reference does not show or teach a torque converter having a pump capacity that is a maximum at a speed ratio equal to zero. As pointed out by applicants, Figs. 4 and 7 of Minowa et al. show the pump capacity/speed ratio relationship, not Fig. 9 as suggested by the examiner. Accordingly, the rejection based on Yoshimoto et al.('972) in view of Minowa et al.('873) is withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
